THE PAWNSHOP ROBBERY.

Abraham Pareira the Suspected Thief. The pawnshop of Solomon Pareira was robbed last Thursday evening of about 16,000 worth of diamonds, watches and jewelry. The theft was not discovered until Friday morning, but as soon as the news began to go abroad, everyone, as is usual in such cases, was prepared to state positively that old Mr. Pareira had robbed himself.

But this theory was knocked in the

ing the news to all the points of escape, giving a description of young Pareira and orders to arrest him, but up to the present nothing bas been heard from him. Young Pareira is a noted bad character, having been turned from his father's door but a short time ago, owing to his dissipation and had babits.

character, having been turned from his father's door but a short time ago, owing to his dissipation and bad habits.

He has more than once been suspected of like robberies, and the detectives, from all information furnished, and by a close inspection of the premises, feel confident that Abraham Pareira is the robber. He is supposed to have effected an entrance through the back window, while his mother, sister and wife were engaged in a pleasant conversation on the pavement, the father being absent at the Lodge. Having once obtained possession of the goods taken from the safe, he is supposed to have turned them over to his "pal," who was waiting, and immediately decamped for Indianapolis.

The morning after the robbery, young Pareira started out with his peddlingwagon, which he had been employed to drive for a Mr. Goodman, a paint dealer, on Front street, but finally sold horse, harness and all at the Fifth-street auction stables for \$45, about one-third of their value, and departed for parts unknown.

The above out represents the Hon. Daniel & Dickinson, former Attorney General of the United States, as seen when attacked with STRANGULATER BUTFURE.

Mr. Dickinson suffered intensely, notwithstanding he had the best surgical aid. Everything was done that science could suggest, and as the last remedy the Xnife used, and yet he died in great anguish on the third any. This is a fearful warning to those who are ruptured,

RUPTURE---HOW CURED.

MR. GEORGE E. EAKINGS, OF PHILADELPHIA.
WRITES THE FOLLOWING INTERESTING PARTICULARS:

TICULARS:

To the Editor of the New York Sun:
SIR—For several years I was afflicted with
rapture and suffered from the use of trusses.
Casually noticing in your paper a recommendation of Dr. Sherman of your city, and about
the same time meeting Mr. J. W. Ayres, of
Camden, N. J., who informed that he had boos
a victim to rupture and was cured by Dr. Sherman's treatment, I felt animated and went
atraightway to New York, consulted Dr. Sherman, and had him adapt his remedies to my
case. It was to me a happy occurrence, and I
shall ever feel grateful to you and Mr. Ayres
for having directed my attention to Dr. Sherman, as well as to min for the safe and comfortable manner in which he treated my case.
My mind was greatly oppressed, and my future
was shallowed, as I was trying various trusses
for help with no other result than vexation and
injury. But now being sound again, and realizing its felicity, I feel it my imperative duly
to add my testimony in favor of Dr. Sherman's
remedies, and to recommend the ruptured to go
to him with the fullest confidence of being banefited.

We cheerfully publish the foregoing communication, believing it may result in benefit to some one. Mr. Eakings is a subscriber to The Sun and a reliable gentleman. His statement will doubtless reach many sufferers who will, with our vouching for its truthfulness, have cause to feel as grateful toward him as he now feels toward Dr. Sherman.

The foregoing remarks from the New York Sun must be cheering to those who are rup-

The cure is effected by Dr. SHERMAN's method without an operation, simply by external local applications, both mechanical and medicinal, made daily by the patient, who, while under treatment, can perform any kind of labor, or take the most active exercise with perfect scenity from dangers or inflamed and strangulated rupture, without the suffering and injury caused by the use of trusses, and without interfering with the progress of cure.
